

# NORMA TORRO® Non-Perforated Worm-Drive Hose Clamps

Setting the industry standard for performance, our TORRO worm-drive hose clamps are easily recognised by their unique asymmetrical design. Delivering superior tensile strength and high-fracture torque, this clamp is ideal for applications with a high mechanical load.

## Strong & Reliable

- 3-piece construction with precision fit and finish
- 100% stainless steel 304 construction for superior corrosion resistance

## Smoother Worm-Drive Action

- Non-perforated design won't damage soft tubing
